

Certificate of Completion

This is to certify that

Pricy Christian Dolor

has successfully completed 60 hours of professional development by
finishing the 6-week online training course on

MS SQL Server Professional Certificate

completed online on October 30, 2023.

Throughout this specialization, learners develop comprehensive skills in SQL. Upon completion, learners are equipped to design complex and professional databases, design data-driven workflow that delivers insightful results. They gain proficiency in cleaning and transforming datasets, extracting valuable information using SQL queries, and performing intricate calculations. Advanced data analysis using SQL is a key component of the course.
